October 13, 2009

Dear District 6 CWA Members:

I am pleased to announce that after over seven months of extraordinarily difficult bargaining we have reached a tentative agreement with AT&T.

am extremely proud of what our CWA Bargaining Committee has been able to accomplish on behalf of our members in spite of the many obstacles they faced.

We all know the situation with the economy and even in District 6 we have cities with unemployment as high as 10%. Rising health care costs are a national crisis. These were not the best situations to enter collective bargaining. The Company used these circumstances to their advantage. Also, as AT&T settled contracts with other bargaining units the Company insisted on pattern bargaining. Our committee stood their ground and insisted on bargaining our own agreement. I applaud them for doing just that.

All of the AT&T agreements have always had similarities and differences. You will find that is true with this agreement.

As you will note, this is a four-year agreement. The changes in health care are not identical to other agreements bargained. There are differences in the treatment of Premise Technicians, etc. Once you look at the details, it will become apparent that this contract was bargained by our elected District 6 Bargaining Committee.

I have worked with many bargaining committees over the past 25 years. I have never seen a committee more dedicated to its purpose and the members of this Union than this 2009 CWA/AT&T Bargaining Committee. I join the Bargaining Committee in recommending this contract to you for ratification.

In Unity,

Andy Milburn Vice President

AM/bp

COMMUNICATIONS WORKERS OF AMERICA, AFL-CIO

DISTRICT 6

CWA/AT&T-SOUTHWEST TENTATIVE AGREEMENT

The following tentative agreement has been reached after seven long months of contentious bargaining. As a Bargaining Committee we believe, though this agreement is not everything we had hoped for, it is the best we could attain from AT&T. We do not believe that further negotiations will result in any additional improvements. This agreement is not exactly like other regional agreements, but there are similarities. As a committee, we felt it was important to stand our ground and push for the best possible contract we could achieve for the hard working Union members of District 6 because we believe you deserve the best. We unanimously recommend this agreement for ratification.

In Unity, Richard Kneupper Glynne Stanley Ron Dye

The Company will complete this process no later than 90 days after ratification of the 2009 Labor Agreement. The Union will have a representative, designated by District 6, to be a part of the conversion process.

Modifications include offers in Legacy T entities and the National Internet Contract as well as any job offer made within the Southwest Region. The Company cannot suspend or cancel during the life of the Agreement.

Success Sharing Plan

The Success Sharing Plan (SSP) replaces the Team Performance Award (TPA). There are two components of the Success Sharing Plan: the dividend equivalent and the stock appreciation. Employees will be awarded 150 success units the first of October each year. The success unit is only used as a multiplier in the payout calculation and is not a share of stock nor has any other value. The stock price used will be the closing AT&T stock price on the New York Stock Exchange on October 1 of each year and September 30 of the following year. The increase in stock during those two periods will be multiplied by 150 units for the payout amount. The dividend rate value will be determined by adding each AT&T declared quarterly dividend during the award year and multiplying this total by 150 success units. The payment of the award will normally occur the payday of the last full pay period of November. Employees will receive a total payout based on the difference between the ending award value and the beginning award value for the award year multiplied by 150 success units. The payout for 2010 and 2011 will be stock appreciation only. The dividend portion of the payout in those two years will be used to fund HRA's for current retirees who are Pre-65. The payout for 2012 and 2013 will be the dividend portion combined with the stock appreciation for all employees.
